

Lead-out Energy Flying Saucer Paradigm and Modern Wealth of Nations

Lawrence Tseung

Use Lee-Tseung Lead out Energy Theory

lawrencetseung@yahoo.com

Presentation on July 4, 2016

Continued: Overunity.com - search “ufo propu”

Goal 1

- Many UFO sightings. Find a **plausible** scientific explanation. Can they be man-made?
- Can we use energy from the environment such as gravity, light, magnetic, electromagnetic or electron cloud energy from atoms?
- Is there a scientific explanation?
- **We found that the Milkovic Two Stage Pendulum provides a good explanation.**
- **FLEET (Forever Lead-out Electromagnetic Energy Transformer) is another.**

Goal 2

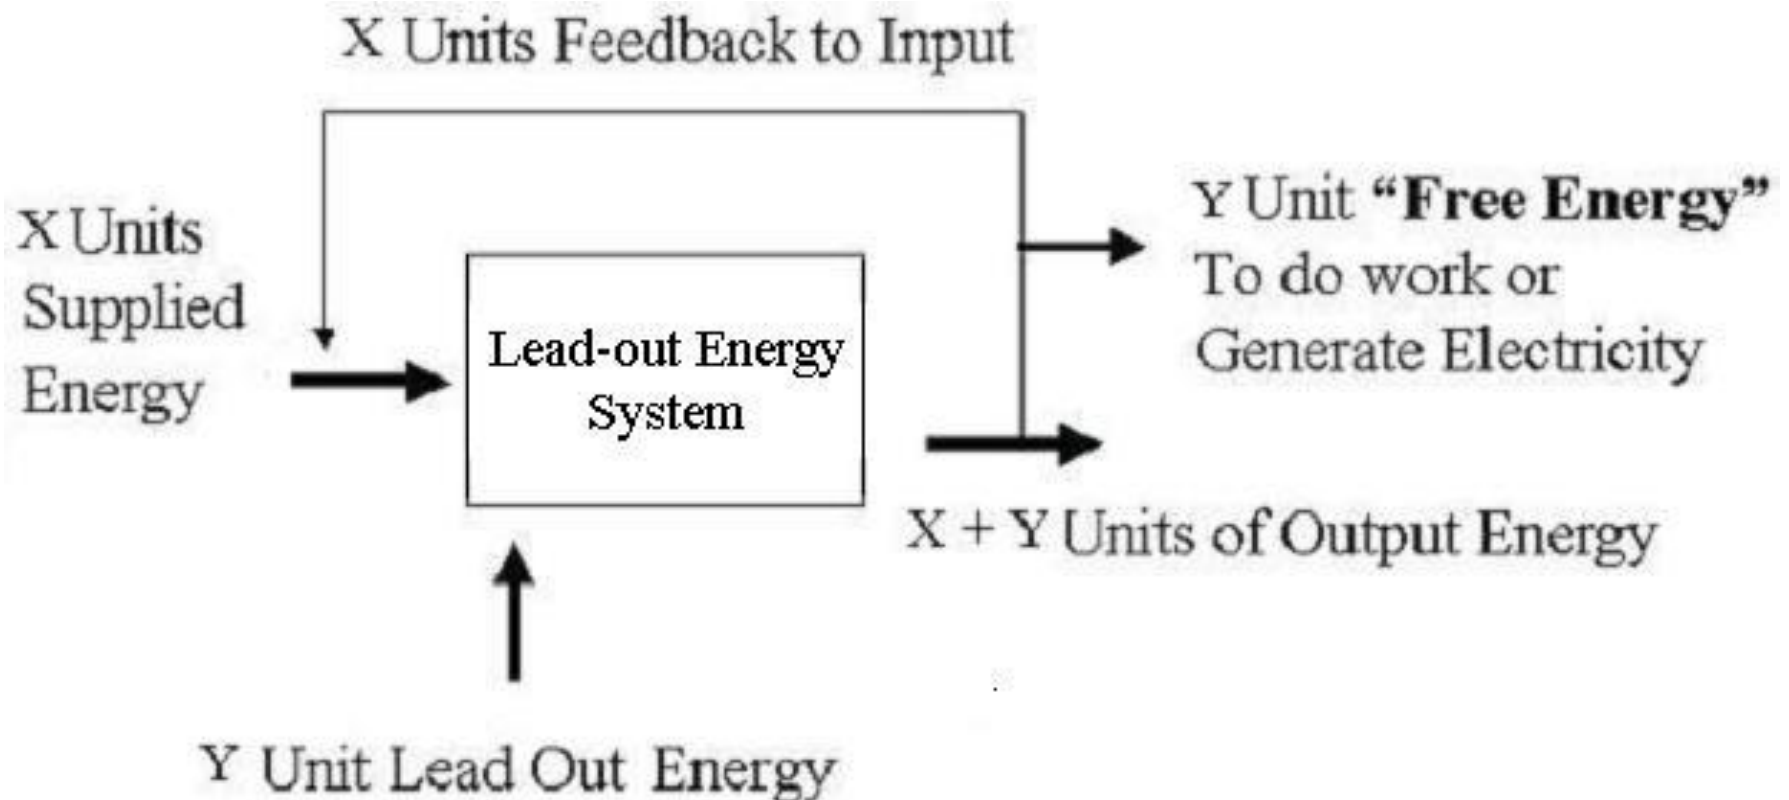

- **We also found the DSO waveform of Lead-out electromagnetic energy.**
- China, USA and Russia are keeping the UFO technology as top military secret.
- Preach Love Thy Enemy to set the groundwork for spreading prosperity to all Nations.
- **If a Nation wants to be rich and remain so, it should get other Nations rich!**

Obstacles already Overcome

- The Law of Conservation of Energy states that energy cannot be created or destroyed. It can only change from one form to another.
 - Thus perpetual motion machines not possible.
- Lead-out Energy Machines can bring-in energy from the environment and thus possible.
 - Solar Energy, Wind, Tidal Waves (a form of gravitational energy)...
 - Electromagnetic pulsing...

Bring-in Energy from Environment (The most important Slide)

- **Not Perpetual Motion Machine.**

More on Lead-out Energy

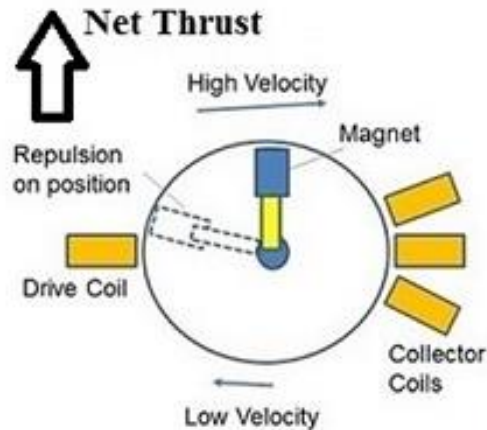

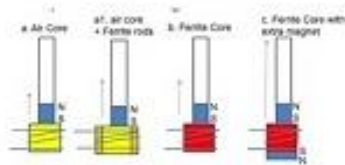

- If there is loss $L1$, Output Energy = $X+Y-L1$.
- If $L1$ is larger than Y , Output Energy $< X$.
 - Machine can be efficient but additional energy must be continuously pumped in to keep machine working.
- The Input energy may have to be in pulse form
 - Pulse timing or resonance becomes important.
 - Efficiency may vary with machine rotational speed

The Late Lee Cheung Kin first suggested that gravitational energy can be lead-out

- Conceptual Theory achieved.

1. Pulsed Pendulum can lead-out gravitational energy...

2. UFO propulsion can be achieved via varying angular velocity...

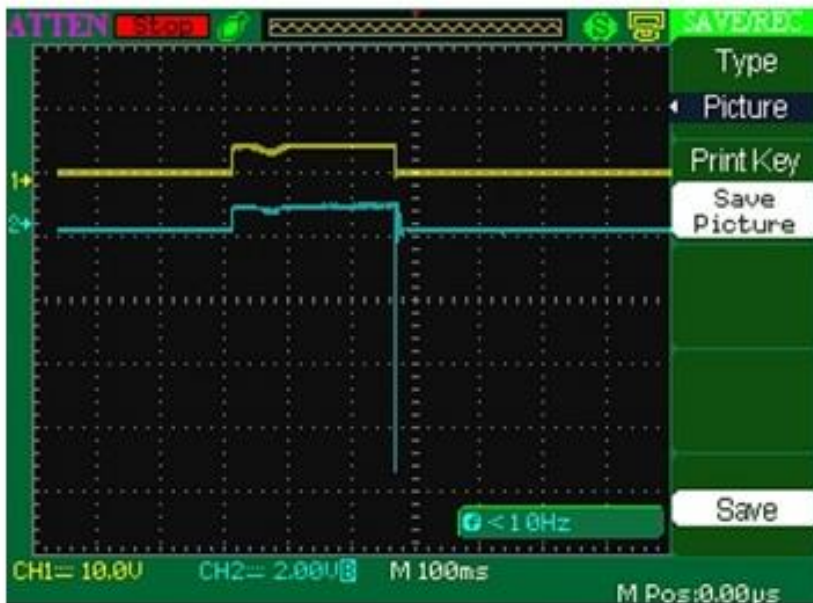

Borrowed design concept
From 225 HP Pulse Motor

**Use Centrifugal Force
(King David Sling)**

The lead-out electromagnetic energy waveform (Vertical)

Waveform of magnet repelled by Coil

Full Pulse of 260ms due to human reaction.
Top curve is current (voltage across 1 ohm resistor.)
Bottom curve is Voltage across the 300 turn coil.
Leading edge (RHS) showed back EMF

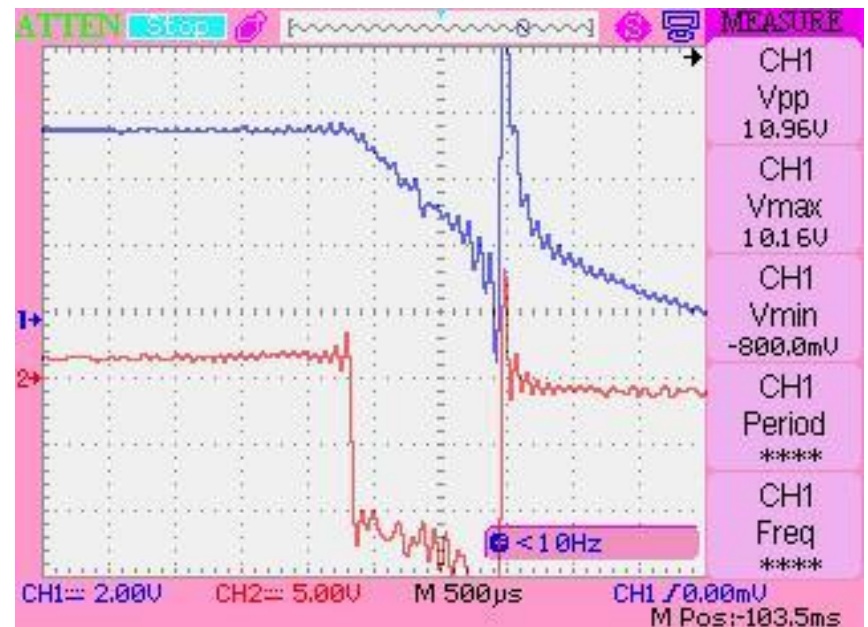

Leading Edge section is expanded. (1ms scale)
Current is still positive. Voltage is negative.
That represents energy flowing back or **Lead-out Energy**.
Short Pulse is better in leading-out energy.

Waveforms in circular pulsing

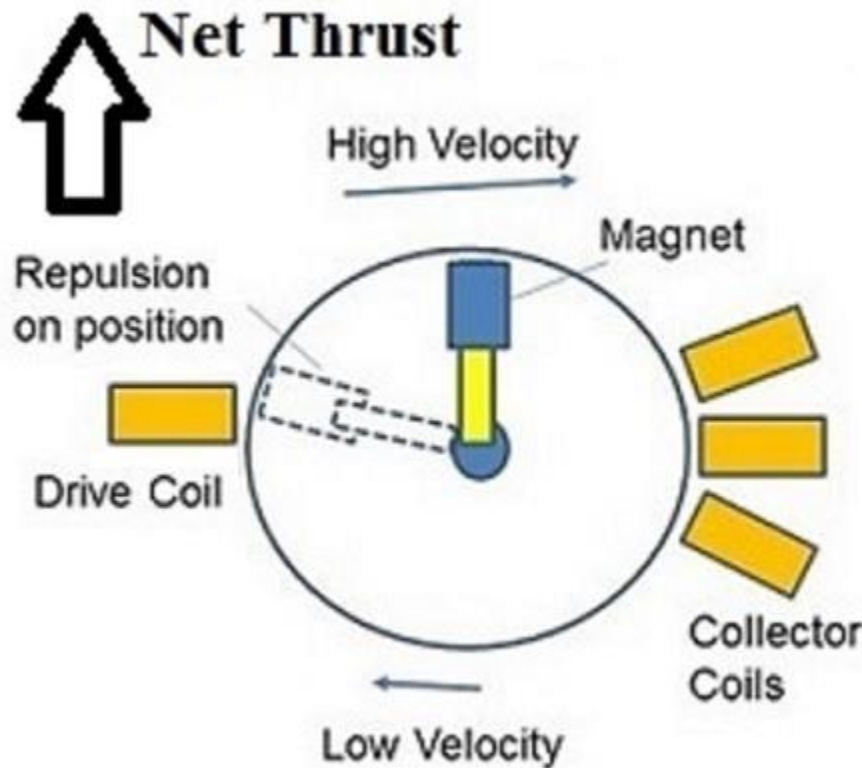

Top curve is current.
Bottom is voltage across coil.
Pulse Duration is 150ms

The Leading edge is expanded
To show positive current and
Negative voltage.

The King David Sling Technology

- The David and Goliath Story.

High Angular Velocity gives high Centrifugal Force.

Magnet at top part of circle has high Angular Velocity.

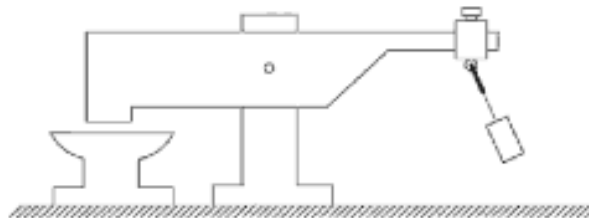

Similar invention by ISA on [youtube](#).
[Centrifugal propulsion](#).

Man-Made UFO, QMOGENs, etc...

- [Nov 7 2015 California Video](#)
- [Nanjing youtube video.](#)
- Other useful links
 - [Milkovic two stage pendulum](#)
 - [Chan Wheel](#)
 - [William Skinner Device](#)
- Overunity.com on [UFO propulsion](#)
- [PESNetwork](#) on QMOGENs

Milkovic Two Stage Pendulum

- A Pendulum can be 99% Efficient.
- When it is coupled to a seesaw as in the Milkovic Two Stage Pendulum:
 - The swinging action of the pendulum gives rise to the seesaw action.
 - The seesaw action is a result of Centrifugal Forces and is “free”.

Significance of the Milkovic 2SO

- If we can lead-out gravitational energy:
 - We must be able to lead-out magnetic energy.
 - Just replace the pendulum with a magnet and set up appropriate magnetic fields.
- Improve efficiency with unbalanced wheel.
- Add unbalanced wheel to various inventions to lead-out energy.
- “Overunity” research is now respectable.

Jesse McQueen US patent

- <https://www.youtube.com/watch?v=XrPkAAfWB8I>
- ***US QMoGen Patent 7,095,126, Aug 2006***
- *The invention involves a generator head, motor, gear box, and belts. "Once the system has started, it is not necessary for the battery to supply power to the system. The battery can then be disconnected. The alternator and electric motor work in combination to generate electrical power."*

FLEET (Forever Lead-out Electromagnetic Energy Transformer)

Joule Thief with capacitor prototype available for demonstration

10 second charge can light LED for over 20 minutes

- FLEET technology used

A 10 Second charge can light up an LED for over 20 minutes. Resonance frequency can be heard.

Circuit picks up electromagnetic energy from surrounding...

Tesla Motors now has a Powerwall product.

The Input can be from Solar Panels etc. to charge batteries.

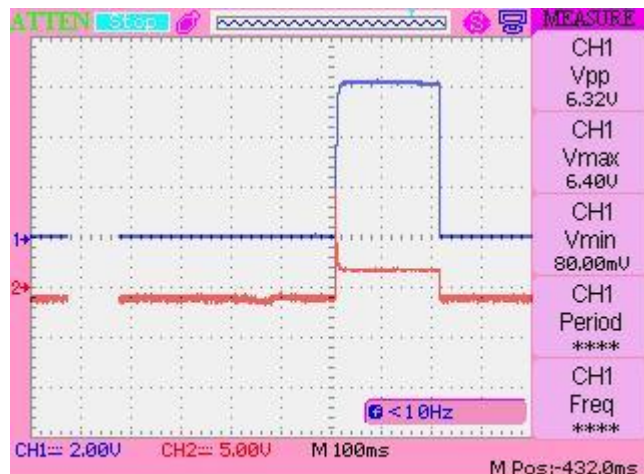

The Bill Fung Project

- Do proof of concepts experiments
- Vertical Repulsion showed lead-out energy waveform.
- Appropriate Pulsing can keep Fung Wheel rotating.

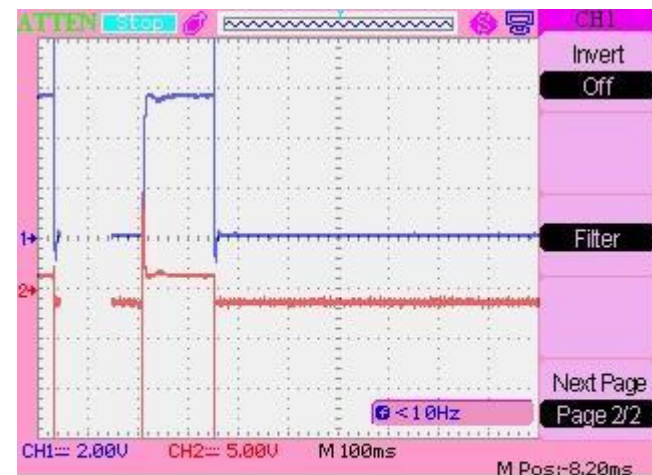

Manual Pulsing waveform

The Pulse can be captured . A 5 volt Input Voltage can produce a pulse of -580 volts!
Evidence of Lead-out Energy...

badly timed pulse - no lead-out energy

Pulse with negative Voltage at both
Leading and trailing edges

Be the Best and win >HK\$10,000

Rules to qualify:

1. Pulse Rotate the Fung Wheel 10 consecutive times.
2. Capture the Waveform on the DSO.
3. The Negative Voltage V_{pp} (Ch2) must be 600 V or more.

The 10 best qualifiers will be invited to a Public Event (to be announced later) to compete and videotaped.

Joanna from USA

- Achieved >10 revolutions in first try.
- Negative $V_{pp} = 420V$

Love Thy Enemies

- In Business and in Politics, there are no permanent friends nor enemies.
- Weapons are no longer fists, arrows, planes.
- Battlefields extended to Cities and Cyber Networks.
- Nuclear Weapons destroy all. UFOs are new delivery systems. No winners and all losers.
- Remove hate. Seek International Brotherhood.

Modern Wealth of Nations

- Previously, Nations conquer, colonize and enslave other Nations to get rich.
- That led to World Wars, may destroy Mankind
- Modern Wealth of Nations is:
 - **To get rich and remain so, get other Nations rich**
- Lead-out energy is virtually inexhaustible.
- Flying Saucers enable Humans to join Aliens to explore space...

Summary 1

- Gravitational, Magnetic, Electromagnetic, Electron Cloud Energy can be led-out or brought-in.
- Flying Saucers can use Centrifugal Force (King David Sling Technology)
- China, USA and Russia treat this as “top secret”? Some UFOs are man-made?
- Knowledge to be shared to benefit the World.

Summary 2

- The technology potentially can wipe out all existing war planes, rockets, missiles...
- Must preach Love Thy Enemy.
 - Germany and Japan not treated as enemies after Second World War.
- Must look for win-win solutions
 - Get others rich so one can be rich and remain so.
 - International Brotherhood. [World as One](#).
